

8MS CSF's 8MS Cloud simplifies and automates toll-free number (TFN) provisioning and complex routing. Our value-added SaaS platform integrates with the national toll-free number registry, Somos SMS/800, to enable toll-free number reservations and updates in bulk, and helps our customers perform other administrative tasks necessary for managing their toll-free numbers.

8MS Cloud is a complete SaaS solution for toll-free provisioning, texting, and least-cost routing

With 8MS Cloud, users gain valuable insights into their toll-free number records, including routing and historical information, so they can more effectively manage their TFNs, implement complex routing and least-cost routing (LCR) to save money and reroute quickly and efficiently during an emergency.

8MS Cloud provides add-on services for automating the creation of complex and least-cost routings across major carrier networks and allows users to activate them directly to their networks. Additionally, 8MS Cloud offers a complete turnkey solution for adding text messaging to toll-free numbers.

All 8MS Cloud service functions are available through the 8MS Web-based graphical user interface (GUI). Alternatively, toll-free carrier and RespOrg customers

have the option of integrating their commercial websites and in-house provisioning systems through the 8MS Cloud API.

“8MS Cloud allows us to provision faster and with confidence. Before using it, we had to dedicate additional team members to toll-free provisioning.”

Mandy Cerise-Richards
Manager – Toll Free Provisioning, Onvoy

8MS Cloud Advantages

- 8MS Cloud reduces provisioning costs by more than 20 percent
- Increases toll-free revenues by 10 percent
- LCR decreases external carrier costs by more than 20 percent
- 8MS Cloud toll-free texting improves customer satisfaction and increases revenue

8MS Cloud Key Features

- Reserve thousands of toll-free numbers (contiguous or not) at one time
- Complete mass changes and updates quickly in a single action
- Provide easier and safer methods of optimizing TFNs and making routing changes
- Provide emergency rerouting of toll-free numbers in case of an outage
- Graphically manage, validate, and fix toll-free number routing
- Mine the Somos SMS/800 database and the 8MS historical TFN archive for better business intelligence
- Easily create complex routing (routing sets and templates) and LCR
- Activate toll-free numbers in SMS/800 and your carrier networks directly in one step
- Use custom screens and access permissions for different workgroups
- Track and log all activities using secure password access and unique logins
- Access a turnkey solution for text-enablement and delivery of texting on toll-free numbers

8MS Cloud Platform Services

8MS Cloud Core - The main application service of the platform that simplifies and automates the provisioning of toll-free numbers.

8MS Cloud Carrier Express - A standalone or add-on service of the platform that automates the carrier-side provisioning and activation process.

8MS Cloud API - An add-on service that allows carriers and RespOrgs to streamline the toll-free number provisioning flow and integrate the power of 8MS Cloud into their in-house IT infrastructures.

8MS Cloud CPRGen - An add-on service that automates the generation, management, and optimization of complex geographic toll-free routing.

8MS Cloud LCRGen - An add-on service that creates least-cost routing by minimizing external carrier costs and generating optimized toll-free routing.

8MS TeXT - A turnkey solution to enable carriers and RespOrgs to text-enable and deliver texting on toll-free numbers for your customers.

800ForAll.com - An e-commerce website, based on 8MS Cloud, that allows individuals to search for and reserve toll-free numbers and port those numbers to a carrier or RespOrg of their choice.

About 8MS Cloud

CSF's leading SaaS platform simplifies and automates toll-free number provisioning and complex routing with increased automation and a simple administrative interface.

With 8MS Cloud, you can reserve, update, and activate toll-free numbers in bulk in the Somos SMS/800 database and major carrier networks. Use 8MS Cloud to optimize the routing of toll-free numbers based on geography and least cost, and quickly re-route them during an emergency. The platform also provides a turnkey solution for text enabling toll-free numbers from the same interface, without the need to establish separate relationships with texting providers.
